Plan 5.3 : If a reply is obtained from the supervisor, 5.3.1 is implemented, when no reply from the supervisor is obtained, 5.3.2 is executed and when the section site is not found, 5.3.2.4 and 5.3.2.5 are not executed.
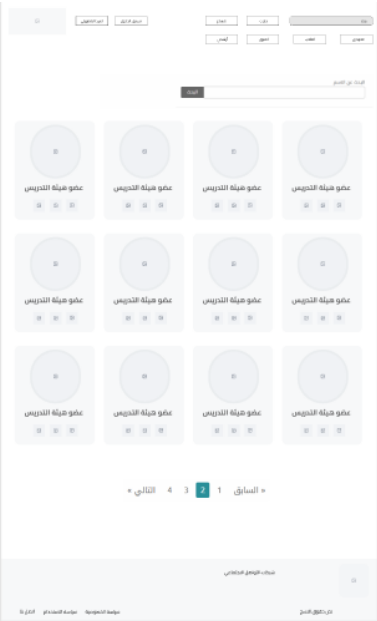

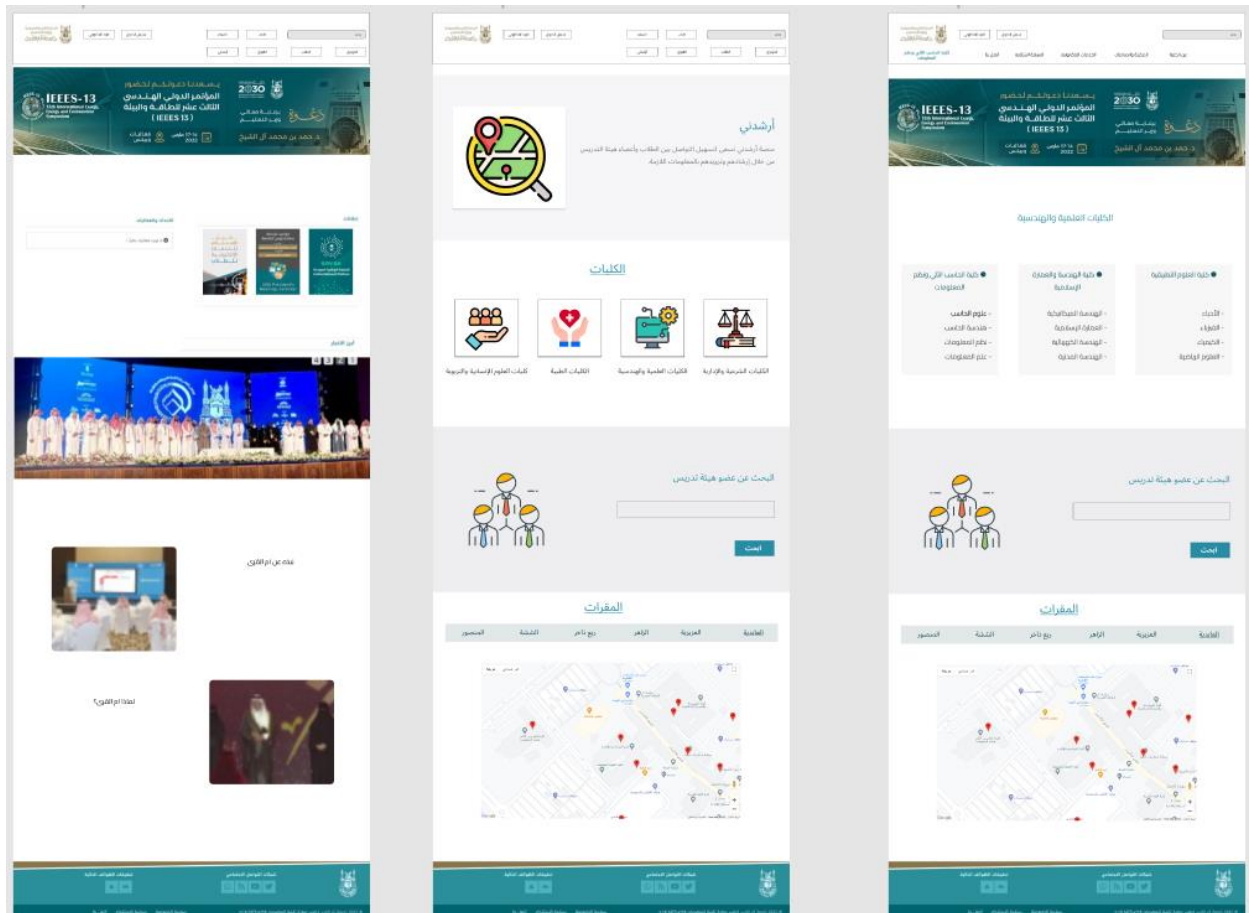

2-Storyboard

This storyboard illustrates The way the user (student) goes to the university to visit the department or the supervisor's office to get a specific service, where the student is exposed to a problem which is not knowing where the department is located? And what's his building? And in what role is there? And he inquires from a group of students who suggest to him to use the page of the department sites and supervisors offices located on the site of the university, and explained the extent to which the student benefited from this service where he was able to reach the place of the department
